

# FLORIDA WETLAND DELINEATION WORKSHOP

Chapter 62-340  
Earn 1.06 Credits for PWS

## REGISTRATION

[www.RichardsonSoils.com/events](http://www.RichardsonSoils.com/events)

**Southeast Florida Region**

**Soils**  
**Vegetation**  
**Hydrology**

**Nov 7 or Recorded Video (4 hr)**  
**January 15-16, 2026 (field)**

# State Wetland Delineation Workshop

## Topics including:

- Wetland Delineation Rule: Ch 62-340 & instruction on data forms
- Wetland & Upland Transitional Plants
- Identification of Hydric Soil Indicators
- Hydrologic Indicators

## Primary Instructors:

Travis Richardson, M.S., Certified Professional Soil Scientist

[Travis@RichardsonSoils.com](mailto:Travis@RichardsonSoils.com)

[www.RichardsonSoils.com](http://www.RichardsonSoils.com)

Lance Hart, P.W.S., Expert in Application of 62-340 FAC

Lance Hart Wetland Consulting

[ldhart81@Outlook.com](mailto:ldhart81@Outlook.com)

Erick Revuelta, MA - Botanist

Environmental Manager, Flagler County

## Cost:

**\$ 695 Normal Registration**

**\$ 645 Government, SWS, or FAEP members**

***20 Hours of Professional Development; 1.06 Credits for PWS***

# INSTRUCTORS

**Travis Richardson**, M.S., CPSS, a Professional Soil Scientist, founder and President of T. Richardson Soils and Environmental, LLC. Travis is an expert soil and wetland scientist with more than 17 years of experience developing an understanding of the relationship among soil characteristics, hydrology, and vegetation. Travis has experience establishing Minimum Flows and Levels, permitting environmental resource impacts, developing and implementing wetland mitigation plans, evaluating wetland functional value (UMAM/WRAP), and performing soil and vegetation monitoring.

**Lance D. Hart**, P.W.S. Emeritus, recently retired from the St. Johns River WMD after 35 years where he managed and implemented the District's Formal Wetland Delineation program as well as being team lead for implementation of the regional wetland monitoring program for the Central Florida Water Initiative. Prior to working at SJRWMD, for 5 years he work for an environmental consultant company providing wetland delineation, site assessments, permitted environmental impacts and designed and implement mitigation for projects from Florida north to North Carolina.

**Erick Revuelta**, M.A., Erick is an Environmental Scientist, with over 20 years of experience working in upland and wetland habitats throughout Florida. Areas of expertise include state and federal wetland delineation, permitting and compliance, botany, vegetation sampling design and monitoring, ecosystem restoration, habitat modeling and assessments, and NEPA (PD&E) studies. As a research associate with Fairchild Tropical Botanical Garden, he has collaborated in rare species surveys and assessments with researchers from Florida International University, University of Florida, and Texas A&M University. Since 2014, Erick has participated as an instructor in several trainings and workshops focused on wetland delineation, hydric soils, and plant identification.
